Previous Participants Testimonials

There is nothing more inspiring than hearing about a story of a great idea told by its own inventor... Inventours is not about powerpoint slides or just another executive course. It is about real passion, real life, hands on innovation! It has been an amazing journey to participate at Inventours Paris, for me as a Professional but as an individual as well. I can only recommend it!

Maria Tavares, Head of Color Innovation, DSM
Inventours Paris

The objective of the Marketing Plans Program is quite practical—to develop a marketing plan for a brand. Michelle guides us through the upfront preparation for the plan, as well as the plan itself. A course with such practical implications is totally geared towards executives who can take lessons from the class one day and implement them at work the next.

Todd Simley, News Producer NBC Universal, MSNBC

Thank you for a fantastic program. I wish I had taken it sooner in my career. As I am currently working on Marketing Plan for my brands, I found it helped me change the way I approached the industry and competitive analyses, providing more meaningful and actionable insights. My agencies commented it was the most thorough background they had received in preparation for their tactical pitches.

Stacey Keamey, Deputy Director, Product Manager, US, Sanofi Pasteur
